Corona update / summer update

With the summer vacation approaching we would like to keep you up to date with the latest update in regards to the possibilities of our health and care with the intention to both your and our safety! Because it appears daily that the virus flares up in some places, we are remaining careful and we are asking you to do also do the same!

Surgery consulting hours:

- All controls are physically again at the practice
- COME ALONE if you can!
- Disinfect hands and keep a distance of 1.5 meters from others outside your own household.
- There is (if desired) 1 adult person (without symptoms!) welcome at the pregnancy controls and the ultrasounds/echos.
- Unfortunately we still cannot receive children.

We ask your understanding and cooperation with the above. You may expect from us that you come to a clean practice area and that we offer the possibility of 1.5 meter distancing from other clients. At really busy times we cannot guarantee the hygiene and distancing in our waiting rooms. To protect you, your unborn child and ourselves the guidelines will remain for the time being!

Births:

- If you have a home delivery you may in addition to your partner have another partner present, provided there is enough room to guarantee the 1.5 meter distancing. Always in consult with us what your wishes are!
- In the hospitals there is only 1 other person allowed. As soon as there is any change here we will let you know. Also by emergency appointments there is only 1 other person allowed. In regards to the visiting hours, this depends on the situation in that particular hospital.

After the birth:

In consultation with you, we come again physically for 2 visits provided that it is medically justified, the others will be done by telephone. If you have to stay longer in the hospital we will agree with you what there is needed/desired to do.

Make sure that you are always available by telephone!

Discuss with your maternity nurse (kraamverzorgende) about visits to see the baby.

If you or anyone in your family has symptoms such as coughs, fever, cold symptoms: then do NOT come to the practice but call us and we can discuss together with you what is advisable.

Keep 1.5 meters distance and protect yourself and others.

Keep to the hygiene rules: Wash your hands and cough into your elbow.

Dear all,

We are here for you even through the summer period!

We shall be taking, in turn, our summer vacation and there are substitutes midwives needed in connection with pregnancy and sickness leave. Therefore it is possible that you see a new face at the control appointments or your birth! You can always find the information on our website. We are happy that we have good and committed substitutes to support our permanent team.

If you have questions or doubts about your pregnancy then you can, of course, phone us at 088-4300 430 or email via [info@delekbrug.nl](mailto:info@delekbrug.nl). If it is needed, we are always there for you via mail, telephone or face-to-face. #Out of love for the loved.

Best wishes,

Team zuid: Martine, Hélène, Marissa, Marijke, Daniëlle en Elke

Team noord: Imke, Annemarijn, Sanne, Mirthe, Anne Fleur en Sam

Team praktijkassistentes: Anja, Irma, Marga en Connie
